

Chronic Wound Therapy

Enhancing Your Coordinated Care

Restore First Health offers a proven, specialized chronic wound therapy for patients who suffer from wounds that show no significant progress toward healing after 30 days of conventional treatment.

Using the latest technology, our clinical team evaluates, measures, and examines the wounds for infections. Once deemed qualified, our team visits the patients in their home once a week, addresses the wound and places a specialized allograft. Patients normally begin to experience healing within the first few applications.

We are local community members — partnering with local home health, assisted living, and long term care. We also welcome patients who care for themselves or loved ones at home who need chronic wound care.

Care Coordination

The cornerstone to our program is care coordination for every patient and provider.

Our dedicated wound care coordinator

- Schedules your consultations and appointments
- Verifies and pre-authorizes insurance
- Obtains any necessary medical records
- Communicates with current care physicians or providers
- Provides medical updates to authorized providers for continuity of care
- Checks in regularly to ensure quality of care and positive outcomes

Qualified patients have a wound that...

is an open wound on the skin

is greater than 1 square cm

has not improved after 4 weeks of conservative therapy

is not infected

Wounds we care for

- Diabetic ulcers
- Sacral Ulcers
- Arterial Wounds
- Venous Wounds
- Traumatic Injuries
- Long term wounds that have not healed...

Treatment is Covered by Medicare

"Compliance with applicable regulations and FDA guidance, and the rigorous standards of the American Association of Tissue Banks (AATB®)*"

*Currently registered and in good standing through March 2025

Long-term Care residents with Medicare or Medicare Advantage Plans, all prior-authorization and certification handled by Restore First Health.

The RFH Difference

We have vast experience in care coordination and management of chronic wounds providing a one-on-one wound care coordinator.

- We come to you for evaluation and treatment.
- We ensure your insurance is verified and authorized in advance of treatment so there are no surprise costs.
- Through the entire process, we coordinate with your PCP or Home Care Provider to work in concert with all of your overall healthcare needs.
- We are committed to excellence in wound care and document your progress each step of the way to share with your clinical team.
- Your care is what matters most to us, and if we can't help you — we will help you find a way towards better health.
